Ed(229—2)—2

In the letter read above, Mr Bhabha proposes to arrange for holding at Bangalore for the first time this year, two conferences, one on the 1st and 11th of March and the other on the 20th idem,—the former for the discussion of educational questions of general interest and the latter for the consideration of certain departmental matters Government consider this a move in the right direction and accordingly approve of it

2 The list of questions given in the Inspector General's communication is necessarily not exhaustive, and it is believed that other important questions, if any, which might be placed before the conferences either by the members or by other persons interested, will also be duly considered. In this connection, Government observe that (1) the method of teaching English in Anglo-Vernacular Schools, and the age and standard at which such teaching should be commenced, and (11) the teaching of Agriculture in village schools, are matters more of general than of departmental interest, and therefore come within the province more of the first mentioned conference than of the second. On the other hand only so much of the Educational Code under preparation as deals with matters unconnected with departmental discipline and management, would come within the purview of the General Conference. These are matters of detail which Government leave to be settled by the conferences themselves.
